SATURDAY, MARCH 31. 1739.

NUMB. 1178

91: 1176.

Yesterday arrived a Mail from Holland.

Petersburg, March 6. O. S.

AST Week an Express arrived at Court, dispatch'd from General Rumanzow at Gorodischka in the Ukraine, with the agreeable News, that the Tartars having attempted to make an Incursion on the Frontiers of Russia, have been intirely defeated. The Court has

caused a particular Account of it to be published, of which the following is an Extract.

On the 14th of Feb. O. S. Major General Bachmatow being inform'd that two Parties of Tartars appeared on the other Side of the Nieper, between Potock and Kremenizuck, he took the necessary Measures to give them a warm Reception; so that early the next Morning, when the Tartars to the Number of 3000 pass'd that River, they were so vigorously attack'd by the Major General, that they were all cut to Pieces, except such as retir'd with the utmost Precipitation to repassing the River, in doing of which the greatest Part of them were drown'd. The Cossacks pursued the rest as far as the River Ingulitz. According to the Report of the Prisoners taken, to the Number of 50, the main Body of Tartars consisted of 20,000 Men, commanded by the Sultan of Biologrod, who, upon the News of the Defeat of this Detachment, retir'd with his Men above 100 of that Country Miles towards Poland, where he plunder'd and burnt some small Towns and Villages in his Road, to revenge the Misfortune he had met with in the Ukraine, upon the Poles. The Russian Officers who shar'd in this Victory with the Major General, were the Prince de Repnin, who is also a Major General, and the Quarter Master General de Fermer. Our Troops took from the Enemy two Pair of Colours, a great Number of Bows and Arrows, and 1300 Horses. All the Mischief that the Tartars did before they were defeated, was the setting Fire to a neighbouring Village, where there was an old Church and a Convent.

The Prince of Hesse Hambourg, General of the Artillery of the Russian Armies, is gone, by Leave of the Czarina, together with the Princess his Consort, to pass nine Months in Germany. The Baron de Scaffrow, a Member of the Czarina's Privy Council, a Senator and Knight of the Polish Order of the White Eagle, died here the 31st ult. about 65 Years of Age. The Baron had been so often a Favourite, and so often in Disgrace, had been in so many different Situations, one while as a Courtier, at another Time as a Grumbler, and had pass'd thro' such a Variety of Employments, that if his Life were well written, it would be worth the reading.

We are assur'd that the Russian Army which is design'd to act next Campaign against the Turks, will consist of 60,000 Men of regular Troops, besides the Cossacks, Calmucks and Tartars. General Keith, who went lately to Paris to get a Cure for the Wound he receiv'd in his Knee at the Siege of Ochacow, writes Word hither that he has put himself into the Hands of that able Surgeon Morand, and that he propos'd to return to this Country by next May or June.

Laticzaw, March 10. We hear from the Frontiers, that since the late Defeat of the Sultan Biologrod in his Attempt to pass the Nieper, the famous Seraquier Bachitgercy, and a young Sultan, were re-assembling the Tartars of Biologrod, Budzioc and Nagay; that they reckon they shall be able to form an Army of 100,000 and then to join the Sultan of Biologrod; after which those three Generals purpos'd to make another Invasion upon the Russian Territories.

Venice, March 14. O. S. According to private Letters from Constantinople, the Marquis de Villeneuve, the Ambassador of France at the Porte, complains heavily of the Miscarriage of his Endeavours for a Peace between the Grand Seignior, the Emperor and Russia. The Grand Vizier declared

to him very lately, 'That since the last Conditions offer'd by the Sultan for a Peace were not accepted, he was willing to propose new ones; that now he intirely dropp'd the Demand which he had made of Imperial Wallachia, and Part of Servia; and that he consented at the same time to restore Orsova to the Emperor, or to demolish the said Fortrefs, provided his Imperial Majesty will ingage to restore to the Porte the Fortref of Temeswar, and all that Part of the Bannate which extends from the River Temes to the Frontiers of Wallachia, including Vipalanka, Meadia, Cornia, &c. but that nevertheless his Highness excepted Caransebes, where the Emperor might have a Fortref built to cover the Frontier of Transilvania, and that he would yield to his Imperial Majesty a certain Territory in Turkish Wallachia, which 'twould be very proper to join to Transilvania, or Imperial Wallachia.' The Grand Vizier, at the same time that he made these Proposals, held out a Map, on which he described to the Marquis the District which the Grand Seignior demanded, and what Part of Turkish Wallachia he consented to yield to the Emperor; and he assured the Minister, that his Highness was resolv'd to stand or fall by those Terms, and that he would not recede from them tho' he were to lose a Battle. The Grand Vizier made no Secret to the Marquis of the Plan of the Operations which he has Orders to execute the next Campaign, but told him very frankly, that he would march with the greatest Part of his Army directly towards Belgrade, in order to besiege it.

Some Merchants of Bosnia and Turkish Albania, who are settled here, have received Letters from their Correspondents at Ragusa and other Parts of Dalmatia, with Advice, that Mahomet the Bascha of Albania, who is of a very tyrannical Temper, and has render'd himself odious by his Cruelties in the Exercise of his Government at Scutari, had resolv'd to take the Opportunity of the first fair Weather to march with a great Body of Militia, in order to punish the Inhabitants of the Territory of Kuizi for a Resolution which they had made to shake off the Turkish Yoke, and submit to the Emperor; but that this Bascha was so terribly hated, that a secret Conspiracy was form'd against his Life, so that just as he was going Abroad, a Musket was fir'd at him, upon the Report of which several Persons came and stabb'd him in the Body in above a hundred Places.

Breslaw in Silesia, March 10. O. S. The Emperor has lost another of his General Officers, and the Holy Roman Empire one of its Counts, by the Death of Henry William, Count de Welzegg, (with a long Train of Lordships besides) a Member of the Emperor's Privy Council, and one of his Chamberlains, Velt Marshal General of his Forces, Colonel of a Regiment of Foot, Commandant at the Fortref of Great Glogan, General in Chief of the Emperor's Forces in this Duchy, Knight of the Order of the White Eagle, &c. who died here two Days ago in the 74th Year of his Age. His Corpse, which now lyes in State, is to be carried To-morrow to Koßigberg in Upper Silesia, there to be inter'd.

Vienna, March 14. O. S. The Velt Marshal de Wallis has put off his Departure to the Army for a few Days longer, and the Prince of Saxe Hilburghausen set out two Days ago to his Estate, in order to repair from thence to his Command. The general Rendezvous of the Imperial Army is appointed to be on the 5th of May in the Neighbourhood of Belgrade; but some Advices say, the Turks have already assembled near 50,000 Men on the Frontiers of the Bannate of Temeswar. The Turks have made another Attempt to penetrate into Transilvania, but were vigorously repuls'd by the Troops of the Prince de Lobkowitz. 'Tis said that those of Bosnia have lately burnt some Villages in Croatia. At Zolnock, a Town in Upper Hungary, at the Conflux of the Zagya and the Theisse, there has been a great Fire, by which several Houses were burnt, together with the Magazine settled there for the Imperial Forces. The Countess of Seekendorf is arriv'd here from Gratz, to solicit that Intire Liberty for her Husband which has been so long promis'd.

Lipsic, March 20. O. S. We have the sad News from Barbi, that on the 10th Inst. in the Afternoon,

a Fire broke out in the Castle where the Duke of Saxe Barbi commonly resides, which, by reason of a high Wind that blew at the same Time, burnt with such Fury, that it was not possible to extinguish it till Midnight, when it had consumed one half of the Castle, together with a great deal of the Furniture and other Effects. The Princess of Anhalt-Cöthen was brought to Bed at Cöthen on the 11th of a Princess, who is christen'd by the Names of Maria Magdalena Benedictina. The Countess Charlotta Wilhelmina of Erpach-Furstenau, Sister to the Duchess of Saxe-Hilburghausen, died the 16th ult. at Hilburghausen in Franconia.

Paris, March 19. O. S. M. de la Roche Courbon, who carried away Mademoiselle de Moras from a Convent, and married her clandestinely, being out of the Kingdom, is condemn'd by the Parliament to be beheaded in Effigie. Letters of the 6th from Madrid say, that the King of Spain has remitted to Don Geraldino, his Minister at London, the 95,000l. Sterl. which his Catholick Majesty has agreed to pay for Satisfaction of the Losses of the English Merchants.

Hague, March 27. O. S. Mr. Trevor, the British Minister here, has, by a Letter from the King his Master, notify'd to the States General the Birth of the Prince, of whom her Royal Highness the Princess of Wales was delivered on the 14th Instant.
